

How to Prepare for Your Lens Implant Surgery

Please read the following instructions carefully.

This will ensure the best results for your eyes and the most pleasant surgical experience.

Your pre-op measurement appointment is _____.
You must be out of your contact lenses at least two weeks prior to your measurement appointment unless otherwise directed by your doctor.

- Please have the prescription(s) filled at your pharmacy. Omni-pred will be supplied by the clinic. Please bring your drops with you the day of surgery.
- You will use all three drops after surgery and post operative instructions will be given to you on the day of surgery.
- Please remember to get your pre-op physical (H&P) with your Primary Care Physician. It is a good idea to keep a copy of this form for yourself and bring it to the Clinic on the day of surgery.

Upon wakening on the day of surgery use 1 drop of EACH DROP VIGAMOX, Nevenac, and Omni-PRED drops in the **RIGHT** **LEFT** eye.

Please arrive at the surgery center on _____ at _____.

Your visit should last about 2 hours. Make sure you have a driver to take you home.

Important Reminders for the Day of Surgery:

- You must be out of contact lenses for at least 24 hours prior to surgery.
- You may have a light breakfast prior to morning surgery or breakfast and a light lunch prior to afternoon surgery.
- Dress comfortably in a short sleeve shirt or blouse with no tee or undershirt.
- Leave jewelry, valuables and cell phones at home. You may wear a watch and/or rings.
- Do not wear any makeup, perfume or cologne, or binding clothes.
- Take all of your regular medications as you usually do.
- You must have a ride home from surgery. You may be able to drive to your appointment the next day.

Your 1-Day Follow-up appointment is _____
